Subject: Update and apologies

Jane,

My apologies for this late message – I completely missed your phone message until this morning.

The meeting with industry went fairly well on the surface. I am not sure those who attended the meeting understand fully what a UIC review might mean for them. There is enormous misunderstanding in industry – some of it could be wishful thinking, but some of it is clearly confusion, so we will be following up with more information and meetings.

We did pass out the letter to those in the room and discussed the partnership (and oversight role) that first EPA has and then the Water Boards – this in the context that the future is just very different from the past.

Happy to speak with you on the phone. I do not have any meetings scheduled from 11-2, and I will be driving to Bakersfield beginning at 5 PM, and hence will be a stable target well into the evening.

Steve
